

CardVisor I

The CardVisor I package displays the age, license number, DOB, expiration, alarms if under age/expired, and saves last 6000 swipes in memor which is vital to prove due diligence. It includes a battery powered handheld computer, magnetic card reader USB Hotsync cradle and transaction download software/hardware for Windows or Macintosh.

Price: \$375.00

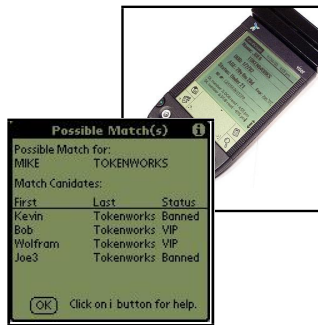

CardVisor II

The CardVisor II package includes all features found in the CardVisor I package plus displays name and captures name/address in memory. Displaying the name means the name printed on the front of the license can be cross checked with the one encoded on the data stripe. Capturing name and address means customer databases / mailing lists.

Price: \$425.00

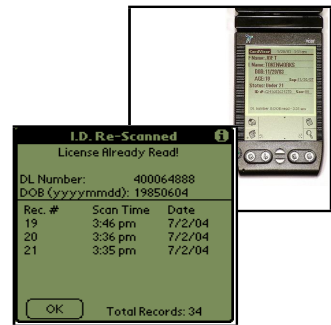

CardVisor III

The CardVisor III package includes all features found in the CardVisor II plus adds a VIP/Banned watch list and Append Notes feature. The watch list identifies customers who are VIPs, bar staff, or have been banned when an ID is scanned. The Append Notes feature adds a note, up to 70 characters to each scan transaction, e.g. email addresses, phone numbers, 'cause fight', etc.

Price: \$550.00

CardVisor IV

The CardVisor IV package includes features found in the CardVisor III package plus adds the ability to detect when a card is 'reswiped' in the same evening. It detects when customers try to 'pass back' a license to friend in line and helps detect if a returning customer has previous paid a cover charge. It also helps detect batches of fake IDs which share a 'cloned' data stripe.

Price: \$650.00

CardVisor I / II / III / IV -BC
